Government, or the person claimed on the part of the Government of Mexico, has already been tried and discharged or punished, or is still under trial in the territory of Mexico or in the United Kingdom respectively for the crime for which his extradition is demanded.

If the person claimed on the part of Her Majesty's Government, or on the part of the Government of Mexico, should be under examination for any other crime in the territory of Mexico or in the United Kingdom respectively, his extradition shall be deferred until the conclusion of the trial and the full execution of any punishment awarded to him.

ARTICLE V.

The extradition shall not take place if, subsequently to the commission of the crime, or the institution of the penal prosecution or the conviction thereon, exemption from prosecution or punishment has been acquired by lapse of time, according to the laws of the State applied to.

ARTICLE VI.

A fugitive criminal shall not be surrendered if the offence in respect of which his surrender is demanded is one of a political character, or if he prove that the requisition for his surrender has, in fact, been made with a view to try or punish him for an offence of a political character.

ARTICLE VII.

A person surrendered can in no case be kept in prison or be brought to trial in the State to which the surrender has been made, for any other crime, or on account of any other matters, than those for which the extradition shall have taken place, until he has been restored, or has had an opportunity of returning to the State by which he has been surrendered. This stipulation does not apply to crimes committed after the extradition.

ARTICLE VIII.

The requisition for extradition shall be made through the Diplomatic Agents of the High Contracting Parties respectively.

The requisition for the extradition of an accused person must be accompanied by a warrant of arrest issued by the competent authority of the State requiring the extradition, and by such evidence as, according to the laws of the place where the accused is found, would justify his arrest if the crime had been committed there.

If the requisition relates to a person already convicted, it must be accompanied by the sentence of condemnation passed against the convicted person by the competent Court of the State that makes the requisition for extradition.

A sentence passed *in contumaciam* is not to be deemed a conviction, but a person so sentenced may be dealt with as an accused person.

ARTICLE IX.

If the requisition for extradition be in accordance with the foregoing stipulations, the competent authorities of the State applied to shall proceed to the arrest of the fugitive.

el individuo reclamado por parte del Gobierno de Su Majestad, ya ha sido juzgado y absuelto ó castigado, ó está todavía enjuiciado en el territorio del Reino Unido ó el de México respectivamente, por el delito con motivo del cual se pide la extradición.

Si el individuo reclamado por parte del Gobierno Mexicano, ó por parte del Gobierno de Su Majestad, estuviese enjuiciado por otro delito en el territorio del Reino Unido ó en el de México respectivamente, se diferirá su extradición hasta la terminación del juicio y en su caso hasta haber extinguido la pena que se le haya impuesto.

ARTICULO V.

No habrá lugar á la extradición si despues de cometido el delito ó de comenzado el proceso, ó de la condenación, ha prescrito la acción ó la pena conforme á las leyes del Estado al que se pide la extradición.

ARTICULO VI.

No se entregará al reo prófugo si el delito con motivo del cual se pide su entrega tiene carácter político, ó si él probase que en realidad se ha hecho el requerimiento para su entrega con la mira de juzgarle ó castigarle por un delito de carácter político.

ARTICULO VII.

El individuo entregado en ningún caso puede ser mantenido en prisión ó juzgado en el Estado al cual se ha hecho su entrega, por algun otro delito, ó con motivo de cualesquiera otros negocios, diferentes de aquellos que han motivado la extradición, hasta que haya sido devuelto ó haya tenido una oportunidad de volver al Estado por el cual fué entregado. Esta estipulación no es aplicable á delitos cometidos despues de la extradición.

ARTICULO VIII.

La demanda de extradición deberá hacerse por medio de los Agentes Diplomáticos respectivos de las Altas Partes Contratantes.

La demanda de extradición de un acusado estará acompañada de un mandamiento de prisión expedido por la autoridad competente del Estado que pida la extradición, y de la prueba que, conforme á las leyes del lugar donde se encuentra el acusado, justificarían su detención, si allí se hubiere cometido el delito.

Si el requerimiento se refiere á un individuo ya condenado, se acompañará la sentencia condenatoria pronunciada contra el condenado por el Tribunal competente del Estado que pida la extradición.

Una sentencia pronunciada en rebeldía no se tendrá como sentencia condenatoria; pero el individuo así condenado será considerado como acusado.

ARTICULO IX.

Si la demanda de extradición está conforme con las precedentes estipulaciones, las autoridades competentes del Estado al cual se haya pedido aquella procederán á la aprehensión del prófugo.

ARTICLE X.

A fugitive criminal may be apprehended, under a warrant issued by any Police Magistrate, Justice of the Peace, or other competent authority in either country, on such information or complaint, and such evidence, or after such proceedings as would, in the opinion of the authority issuing the warrant, justify the issue of a warrant if the crime had been committed or the person convicted in that part of the dominions of the two Contracting Parties in which the Magistrate, Justice of the Peace, or other competent authority exercises jurisdiction: provided, however, that in the United Kingdom the accused shall, in such case, be sent as speedily as possible before a Police Magistrate in London. In the Republic of Mexico the Government will decide on the extradition by administrative procedure, until a judicial procedure be established by law, when the accused will be delivered as soon as possible to the Judge designated by law. The criminal shall, in accordance with this Article, be discharged, as well in Mexico as in the United Kingdom, if within the term of thirty days a requisition for extradition shall not have been made by the Diplomatic Agent of his country in accordance with the stipulations of this Treaty.

The same rule shall apply to the cases of persons accused or convicted of any of the crimes or offences specified in this Treaty, and committed on the high seas on board any vessel of either country which may come into a port of the other.

ARTICLE XI.

The extradition shall take place only if the evidence be found sufficient, according to the laws of the State applied to, either to justify the committal of the prisoner for trial, in case the crime had been committed in the territory of the same State, or to prove that the prisoner is the identical person convicted by the Courts of the State which makes the requisition, and that the crime of which he has been convicted is one in respect of which extradition could, at the time of such conviction, have been granted by the State applied to; and no criminal shall be surrendered until after the expiration of fifteen days from the date of his committal to prison to await the warrant for his surrender.

ARTICLE XII.

In the examinations which they will have to make in accordance with the foregoing stipulations, the authorities of the State applied to for said extradition shall admit as valid evidence the depositions or statements of witnesses taken in the other State, under oath or under solemn affirmation to tell the truth, according as its legislation may provide, or the copies of these depositions or statements, and likewise the warrants issued and sentences pronounced in the State which demands the extradition, the certificates of the fact of the condemnation, or the judicial documents which prove it, provided the same are authenticated as follows:

1. A warrant must purport to be signed by a Judge, Magistrate, or officer of the other State.

2. Depositions or affirmations, or the copies thereof, must purport to be certified under the hand of a Judge, Magistrate, or officer of the

ARTICULO X.

Se podrá aprehender á un reo prófugo en virtud de un mandamiento librado por cualquiera Magistrado de Policía, Juez de Paz ú otra autoridad competente en uno ú otro país, fundado en los informes ó quejas, y en las pruebas ó diligencias que, en opinion de la autoridad que expida el mandamiento, justificarian este acto si el delito hubiese sido cometido ó condenada la persona en aquella parte de los dominios de ambas Partes Contratantes en la cual el Magistrado, Juez de Paz, ú otra autoridad competente ejerce jurisdiccion; con tal, sin embargo, que en el Reino Unido el acusado sea consignado, en este caso, tan pronto como sea posible, á un Magistrado de Policía en Londres. En la República Mexicana el Gobierno decidirá en la via administrativa sobre la extradicion, entretanto las leyes no establezcan un procedimiento judicial, en cuyo caso el acusado será consignado tan pronto como sea posible el Juez que la ley designe. De conformidad con este Artículo el reo será puesto en libertad, tanto en el Reino Unido como en la República Mexicana, si en el término de treinta dias no se ha hecho la demanda de extradicion por el Agente Diplomático del país respectivo, con arreglo á las estipulaciones de este Tratado.

Se observará la misma regla en los casos de individuos acusados ó condenados por alguno de los delitos especificados en este Tratado, y cometidos en alta mar á bordo de un buque de alguno de los dos países que llegue á un puerto del otro.

ARTICULO XI.

Solo tendrá lugar la extradicion si, conforme á las leyes del Estado al cual se pide aquella, se consideran suficientes las pruebas, ya para que el detenido hubiera sido sometido á juicio, en caso de haberse perpetrado el delito en el territorio del mismo Estado; ya para probar que el preso es la misma persona condenada por los Tribunales del Estado que hace el requerimiento, y que el delito por el que fué condenado es de aquellos en punto á los cuales el Estado á quien se pidió la extradicion, podía conceder esta en la época de la condenacion. Ningun reo será entregado hasta despues de haber transcurrido quince dias contados desde la fecha en que fué puesto en prision en espera del mandamiento para su entrega.

ARTICULO XII.

Las autoridades del Estado al que se pida la extradicion, en el exámen que deben hacer conforme á las precedentes estipulaciones, admitirán como pruebas válidas las deposiciones ó declaraciones de testigos, tomadas en el otro Estado bajo juramento ó bajo protesta de decir verdad, conforme lo prevenga su legislacion, ó las copias de estas deposiciones ó declaraciones, é igualmente los mandamientos librados y sentencias pronunciadas en el Estado que pide la extradicion, los certificados del hecho de la condenacion, ó los documentos judiciales que lo comprueben, con tal que estén legalizados en la forma siguiente:

1. Un mandamiento debe expresar que está firmado por un Juez, Magistrado, ó funcionario del otro Estado.

2. Las deposiciones ó declaraciones, ó sus copias, deben expresar que están certificadas por un Juez, Magistrado, ó funcionario del otro

other State, to be the original depositions or affirmations, or to be true copies thereof, as the case may require.

3. A certificate of, or a judicial document stating the fact of a conviction, must purport to be certified by a Judge, Magistrate, or officer of the other State.

4. In every case such warrant, deposition, affirmation, copy, certificate, or judicial document must be authenticated either by the oath of some witness, or by being sealed with the official seal of the Minister of Justice, or some other Minister of the other State; but any other mode of authentication for the time being permitted by law in the State where the examination is taken may be substituted for the foregoing.

ARTICLE XIII.

If the individual claimed by one of the two High Contracting Parties, in pursuance of the present Treaty, should be also claimed by one or several other Powers on account of other crimes or offences committed upon their respective territories, his extradition shall be granted to that State whose demand is earliest in date.

ARTICLE XIV.

If sufficient evidence for the extradition be not produced within two months from the date of the apprehension of the fugitive, or within such further time as the State applied to, or the proper Tribunal thereof shall direct, the fugitive shall be set at liberty.

ARTICLE XV.

All articles seized which were in the possession of the person to be surrendered at the time of his apprehension shall, if the competent authority of the State applied to for the extradition has ordered the delivery of such articles, be given up when the extradition takes place; and the said delivery shall extend, not merely to the stolen articles, but to everything that may serve as a proof of the crime.

ARTICLE XVI.

All expenses connected with extradition shall be borne by the demanding State.

ARTICLE XVII.

The stipulations of the present Treaty shall be applicable to the Colonies and foreign possessions of Her Britannic Majesty, so far as the laws for the time being in force in such Colonies and foreign possessions respectively will allow.

The requisition for the surrender of a fugitive criminal who has taken refuge in any of such Colonies or foreign possessions shall be made to the Governor or chief authority of such Colony or possession by the Chief Consular Officer of the Republic of Mexico in such Colony or possession.

Such requisition may be disposed of, subject always, as nearly as may be, and so far as the law of such Colony or foreign possession will allow, to the provisions of this Treaty, by the said Governor or chief authority, who, however,

3. Un certificado del hecho de la condenacion, ó un documento judicial que lo compruebe, debe expresar que está certificado por un Juez, Magistrado, ó funcionario del otro Estado.

4. En todo caso, este mandamiento, deposicion, declaracion, copia, certificado, ó documento judicial serán legalizados ó por el juramento de algun testigo, ó sellándoseles con el sello oficial del Ministro de Justicia ú otro Ministro del otro Estado; pero cualquiera otra forma de legalizacion permitida por la ley en la epoca y en el Estado donde se haga el exámen pueda ser sustituida por la precedente.

ARTICULO XIII.

Si el individuo reclamado por una de las dos Altas Partes Contratantes, en virtud del presente Tratado, lo fuere tambien por una ó por varias otras Potencias por razon de otros delitos cometidos en sus respectivos territorios, se concederá su extradicion al Estado cuya demanda sea primera en fecha.

ARTICULO XIV.

Se pondrá en libertad al reo prófugo, si no se produce prueba suficiente para la extradicion en el término de dos meses contados desde la fecha de su aprehension, ó dentro del término que, ademas de estos dos meses, señale el Estado á quien se pide la extradicion ó el Tribunal competente del mismo.

ARTICULO XV.

Todos los objetos secuestrados que, al tiempo de la aprehension estaban en poder del individuo á quien se ha de entregar, tambien serán entregados cuando la extradicion tenga lugar, si la autoridad competente del Estado al que aquella se ha pedido, ordena la entrega de los mencionados objetos: dicha entrega se extenderá, no solo á los objetos robados, sino á todo lo que pueda servir de prueba del delito.

ARTICULO XVI.

Todos los gastos originados de la extradicion serán por cuenta del Estado que la haya pedido.

ARTICULO XVII.

Las estipulaciones del presente Tratado se aplicarán á las Colonias y posesiones extranjeras de Su Majestad Británica, en cuanto lo permitan las leyes respectivas de dichas Colonias y posesiones extranjeras vigentes en la época en que se pida la extradicion.

La demanda para la entrega de un reo prófugo que se haya refugiado en alguna de estas Colonias ó posesiones se hará al Gobernador ó principal autoridad de la Colonia ó posesion por el principal Agente Consular de la República Mexicana en la Colonia ó posesion.

Letter from the Director-General of the Post Office of India, No. 8535, dated 7th February, 1889.

ORDERED, that this letter be published in the *Gazette of India* for general information.

No. 8535, dated 7th February, 1889.

From—SIR F. R. HODGKINSON, K.C.I.E., C.S.I., Director-General of the Post Office of India,

To—The Secretary to the Government of India, Department of Finance and Commerce.

I have the honour to submit the Annual Report on the Operations of the Postal Life Insurance and Monthly Allowance Schemes during the official year 1887-88.

2. This scheme was begun in February 1884, so that the year under report is the fourth complete year of its existence. Heretofore the privilege of insuring their lives or of purchasing monthly allowances under the guarantee of the State has been restricted to Postal employes; but towards the close of the year under report the Government was pleased to extend the privilege to employes in the Telegraph Department, and effect was given to this extension in July 1888. A slight addition was made to the form of proposal with the object of providing a further check against insuring unsound lives. Four applications for life insurance were refused because of unfavourable reports on the lives of the persons affected.

3. During the year under report the business increased by the addition of 123 persons, who insured their lives for various sums, aggregating in all Rs. 1,56,000. The total amount received as premium on these and on previous policies was Rs. 33,546, and claims were met to the extent of Rs. 13,782, of which Rs. 13,450 represent the value of ten life policies paid, and Rs. 332 the half surrender value on six policies relinquished. The policies surrendered were 14 in number and Rs. 13,050 in amount; while those which lapsed, or

were cancelled numbered 13, their gross value being Rs. 13,075. The progress made in the business is shewn by the marginal figures. No advantage was taken of the option given to purchase an insurance by payment of the premium in one sum. Eighty-three policies, representing an aggregate assurance of Rs. 97,150,

were taken out under the system of paying the premium during a fixed period, 78 by natives and 5 by Europeans; and 40 policies, representing an aggregate assurance of Rs. 58,850, were effected under the alternative of paying the premium during life, 39 by natives and 1 by a European. Of the 123 policies newly issued, no less than 62 belong to the Lower Provinces of Bengal, 20 to Bombay and Sind, 12 to Madras, and 10 to Assam. Since the scheme of Postal Life Insurance was introduced, 100 policies for a total sum of Rs. 1,12,825 have in all either lapsed or been surrendered or discharged. Omitting these transactions, the active policies which existed on 31st March 1888 numbered 732; and the total insurance on these 732 active policies amounted to Rs. 9,34,900, of which some particulars are given below:

1 for Rs. 700 by a single payment of premium.

254 for Rs. 3,17,150 by payment of premium up to the age of 50.

241 for Rs. 3,10,200 by payment of premium up to the age of 55.

236 for Rs. 3,06,850 by payment of premium during life.

officials of the Life Insurance policies taken out. Out of a total of 40,691 employes, 832, or 2.04 per cent., have insured their lives. Excluding the menial classes, which form the great bulk of the staff, the general percentage rises to 5.07 per cent.

5. The Monthly Allowance Branch of this business continues to languish. Not only were no new contracts made during the year,

but two contracts for monthly payments of Rs. 15 were surrendered. Thus two contracts only remained in existence on 31st March 1888, representing monthly payments of Rs. 9 in all.

The licensee shall within twenty-four hours subsequent to such weighment and before the removal of the salt pay the duty leviable thereon.

17. When salt has thus been weighed and the duty paid, it shall with all possible dispatch be removed to a distance of more than one hundred yards from any part of the refinery premises under a pass signed by the said Superintendent or Inspector.

The pass shall be current for such period not exceeding twenty-four hours as may be deemed necessary for the removal of the salt.

A pass shall not be granted for a less quantity than twenty maunds, except for the purpose of emptying the storehouse.

18. Except as hereinbefore provided, or with the permission of the Assistant Commissioner of Salt Revenue, no person shall possess any salt at any place within the limits of, or within one hundred yards from, the nearest point of any saltpetre manufactory or refinery and its appurtenances.

19. If any licensee under the foregoing rules fails during the period of the license to carry on effective working at the place at which he is licensed to carry on the same, the licensing officer may suspend the license until the licensee is prepared to resume effective working there.

The senior officer present at such police post shall receive from the seizing officer the salt or saltpetre so seized, and in the presence of witnesses and accused shall, after weighing and recording the weight of each, take from each distinct kind or quality of salt or saltpetre seized (if there be more than one such kind or quality) two samples of not less than one tola each, which he shall seal with the official seal of the police station, and after numbering them deliver them to the officer who made the seizure, recording at the same time a note on the printed form of seizure which will be presented to him, specifying the total weight of each kind seized according to the weighments made before him, and the corresponding numbers of the samples. The remainder of the salt or saltpetre shall be sealed up with the seal of the officer who made the seizure and of the police station, and shall remain in the mal-khana or other secure place in such station until such time as a written order shall be sent by the Superintendent of the circle either for the destruction of the articles seized, which shall be carried into effect by the officer presenting such request in the presence of some officer of the police station, and the same certified on the reverse of the order, or for the delivery of the same, or part thereof, as the case may be, to the bearer of the order for production in Court.

21. When a seizure is made by a Superintendent in person, he may either follow the foregoing procedure, deputing one of his subordinates present at the seizure to take the salt or saltpetre to the station and receive the samples, or he may himself on the spot take out and seal up the samples and the rest of the seized salt or saltpetre with his own official seal. He may then either take the salt or saltpetre seized with him to deposit where he considers it will be safest, or send it for deposit to the nearest or most accessible police station, to be kept, as in the previous case, until further orders. If, however, the Superintendent himself seals the salt or saltpetre, he must, in the event of the identity of the salt or saltpetre produced in Court being denied by the accused, be prepared to attend and prove the same in person.

22. When anything is seized and detained under the Act or the rules made under the Act, it shall not be released until all duty, penalties, and charges due on account thereof have been paid by the owner to the salt revenue officer who is in possession of such thing.

If the thing is reported for confiscation, it shall not be released unless orders for the release are received from competent authority.

23. If an animal is so seized and detained, the owner shall provide for its due care and keep, in default of which the animal may be sold to defray charges.

24. If orders are received from competent authority for the release of anything seized and detained, and no duty or penalty is payable in respect of such thing, it shall at once be given up to the owner or his agent on his paying all charges incurred.

25. Should no one be present to receive the thing released, the officer of salt revenue in charge shall do his best to give notice to the owner of the order of release, and shall cause a similar notice to be affixed on the office premises and at the Assistant Commissioner's office.

If within two calendar months from the date of the notice no person entitled to receive the thing claim it and pay all charges incurred, it shall be sold, and the proceeds placed in deposit.

After a further period of three calendar months, the money shall be credited to the Government.

26. If any duty is leviable or penalty is imposed by competent authority in respect of the thing seized, unless such duty or penalty, together with all charges incurred, be paid within three days of the receipt of the orders of competent authority for release subject to such payment, the thing shall be sold, and from the proceeds the duty, penalty, and charges shall be deducted, and the balance made over to the owner or his agent. Should no one be present to receive the money, notice, as under rule 25, shall be given, the money being kept in deposit for three calendar months. If not claimed within that period, it shall be credited to the Government.

27. When orders are received from competent authority for the confiscation of anything seized and detained, it shall with all convenient dispatch be sold or destroyed, as the Assistant Commissioner of Salt Revenue may direct.

28. When a Magistrate orders the confiscation of works, materials, or implements under section 9 of the Act, they shall be sold or destroyed by dismantling or otherwise under the orders of the Assistant Commissioner of Salt Revenue.

Appeals.

29. Any person who may be dissatisfied with an order passed by the Superintendent of a Circle may appeal to the Assistant Commissioner of the division; and any person dissatisfied with an order passed by an Assistant Commissioner may appeal to the Commissioner, whose decision shall be final.

30. The Commissioner of Salt Revenue may prescribe all forms necessary for the administration of the Act and of these Rules.

DEPARTMENT OF FINANCE AND COMMERCE.

NOTIFICATION.

ACCOUNTS AND FINANCE.

No. 3280.

Simla, the 29th June, 1889.

The Governor-General in Council has determined to borrow two hundred lakhs of rupees, being the amount required for the public service.

The following Notification is therefore published :

FOUR PER CENT. LOAN.

His Excellency the Right Honourable the Governor-General in Council has resolved to borrow two hundred lakhs of rupees for the public service in the following manner :

2. Promissory Notes will be issued for the said amount in Form A annexed to this Notification, being the form of the notes of *The Four Per Cent. Loan of 1854-55*, of which Loan the notes to be now issued will form a part. All the conditions which apply to notes of *The Four Per Cent. Loan of 1854-55* will apply to the notes to be now issued.

3. Tenders for the whole or any part of the said amount of Rs. 2,00,00,000 will be received by the Comptroller-General from this date to noon of Tuesday, the 30th July next. Tenders must be in sums of 500 Rupees or multiples of 500 Rupees.

4. Each tender must be addressed, in the form annexed to this Notification, to the Comptroller-General, Calcutta, and enclosed in a closed cover, superscribed, "*Tender for the Four Per Cent. Loan.*" If the tenderer is not resident in India, he must name an agent resident in India to whom a letter of allotment may be issued, if any part of the loan is allotted to such tenderer.¹

(a) Each tender must be accompanied by a receipt from the Head Office of the Bank of Bengal, or Madras, or Bombay, or one of their Branches, or

¹ Tenders made in accordance with these instructions will also be received by the Accountants-General, Madras and Bombay, on account of the Comptroller-General, Calcutta, on the 29th July and up to 11-30 or 11 o'clock local time respectively (corresponding with 12 o'clock in Calcutta) on the 30th July; provided that—

(a) they are delivered personally or by clerk or messenger at his office (where a receipt will be given for them);

(b) they are made on printed Forms, to be obtained at his office or at the local Presidency Bank;

(c) each tender is for not less than Rs. 10,000;

(d) that the deposit is either a promissory note, or a Treasury Receipt from the Head Office of the local Presidency Bank, or a cheque on a local Bank in Madras or Bombay, respectively;

(e) that the amount of the tender is made payable either in Calcutta, Madras, or Bombay; and he will return deposits on non-accepted tenders, and will issue allotment-certificates so far as the tenders are payable in Madras or Bombay.

from an officer in charge of some Public Treasury, or by a cheque drawn in favour of the Comptroller-General on a Bank in Calcutta, Madras, or Bombay, or in favour of the Accountant-General, Bombay or Madras, on a Bank in Bombay or Madras respectively in respect of tenders received by him, or by¹ Government promissory notes, standing in the name of or endorsed to the tenderer or the person making the deposit, for not less than one-hundredth, or, if the tender be for less than Five Lakhs of Rupees, then for not less than one-fiftieth part of the tender.

(b) Deposits, not being promissory notes, will, in the case of accepted tenders, be credited proportionally in part payment of the allotment-certificates issued in respect of the tender, and will bear interest for the purpose of clause 14 below from the date of the opening of tenders. When a tender is not accepted in full, the deposits, when they are not in the form of promissory notes, will be credited as far as possible proportionately in even tens of rupees in part payment of the allotment-certificates issued in respect of it. If any allotment-certificate is not fully taken up, the deposit credited in respect of it will be forfeited.

(c) Promissory notes deposited in respect of any accepted tender will be held until all the allotment-certificates issued in respect of the tender are paid up, and will, if the allotment-certificates are not fully taken up, be appropriated by the Government and cancelled.

5. The rate at which a tender is made must not contain a fraction of an anna: if a rate containing a fraction of an anna is inserted in any tender, such fraction will be struck out and the tender treated as if the rate did not contain such fraction of an anna.

6. The rate at which each tender is made must be specified in rupees or rupees and annas: a tender in which no rate is thus specified, but a subscription is offered in some other terms—as, for example, at the recorded minimum, or at some specified percentage in addition to the recorded minimum, or at the average of the accepted tenders—will be rejected as null and void.

7. The minimum rate at which tenders will be accepted will be recorded under the signature of the Comptroller-General, and, before the tenders are opened, placed upon the table in a sealed envelope, but not be declared unless some tender is rejected only because it is below the recorded minimum.

8. Tenders will be opened publicly by the Comptroller-General at the Treasury Buildings, Calcutta, at noon (Calcutta time), on Tuesday, the 30th July next, and those received under the terms of the footnote under clause 4 will be similarly opened by the Accountant-General, Madras, at 11-30 (Madras time), and by the Accountant-General, Bombay, at 11 o'clock (Bombay time), on the same day; but the contents of the tenders will not be disclosed otherwise than as provided in clause 10.

9. Tenders at the recorded minimum rate, and at rates above the recorded minimum rate, will be accepted in the order of the rates tendered, beginning with the highest rate; the amount allotted at the lowest rate at which tenders are accepted will be divided amongst those who have tendered at this rate in proportion, as nearly as may be found convenient, to the amounts of their tenders; provided that no allotment will be issued if the amount distributable on any tender is less than Rs 500.

10. To each tenderer (or to his agent) whose tender is accepted in whole or in part, such number of allotment-certificates as may be necessary to make up the aggregate amount allotted to him will be issued by the Comptroller-General² as soon as possible after the 30th July; and an alphabetical list of the names of those to whom such allotment-certificates are issued will be posted, for general information, at the Head Offices of the Banks of Bengal, Madras, and Bombay.

11. If the allotment made on any tender is less than Rs 3,000 then the whole of the allotment-certificates (after credit of the deposit under clause 4 (b)) will be made payable upon the 10th September.

Otherwise the whole amount of each allotment will be divided into three instalments, as follows:

Instalment I.—As near as convenient to 35 per cent., but not exceeding 35 per cent., payable upon the 13th August:

¹ It is particularly requested that such Promissory Notes may NOT be endorsed to the Comptroller-General.

² For tenders received by the Accountant-General, Madras or Bombay, and payable at those places, the Accountant-General will issue the allotment-certificates.

Instalment II.—As near as convenient to 35 per cent., but not exceeding 35 per cent., payable upon the 10th September.

Instalment III.—The balance payable upon the 28th September, and allotment-certificates will be issued for each instalment separately.

But the whole or any part of any accepted tender may be paid at any time after receipt of the allotment-certificates.

The words "as near as convenient" refer to the necessity for making each instalment an exact multiple of Rs500.

12. Any allotment-certificate will, on application to the Comptroller-General, be exchanged for an equivalent amount of allotment-certificates of smaller denominations, provided that if any payment (beyond the deposit) is recorded upon the cancelled certificate, it can be taken against, and recorded upon, only one of the certificates issued in exchange.

13. Payment of any allotment-certificate may be made to the account of the Government in the Head Office of the Bank of Bengal, or Madras, or Bombay, or in any Branch of these Banks, or into any Public Treasury or Treasuries in India which may be named in the tender in respect of which it was issued. Receipts for such payments will be given by the Banks of Bengal, Madras, and Bombay, or their Branches, or by the Officers in charge of the Government Treasuries at which payment is made, by encasement upon the relative certificate.

14. (a) When any allotment-certificate is fully paid up, the holder will, on presenting it duly receipted at the place where it was paid, obtain from the Public Debt Office, Calcutta, promissory notes of such values as he may desire (each note being in even hundreds and not less than Rs500), bearing interest from 31st December 1889 and he will also receive interest at 4 per cent. per annum from the dates on which he may have made payment till the 30th December 1889.

(b) Or he may, at his option, by paying interest at the said rate from 30th June 1889 to the dates on which he may have made payment, obtain promissory notes as above; bearing interest from 30th June 1889.

7. No mutation of names shall be made in the Patwari's register until the objections, if any, have been heard and determined.

8. Should the objections preferred within the prescribed period be allowed, the Tehsildar shall modify or alter his original order as may seem to him equitable.

9. On such mutation a fee of Rs 1-4 per cent. on the income of Khalsa, and Rs 2-8 on that of Muafi lands shall be levied; provided that the minimum fee shall be 4 annas for Khalsa and 8 annas for Muafi lands. An extract from the register (Form No. I), showing the amount of fees levied, and the dates of payment into the Treasury, shall be sent once a month to the Collector.

10. The Tehsildar shall visit all the villages in his Tehsil at least once in every three months, to clear off mutation cases.

11. The Naib Tehsildar may, with the previous sanction of the Collector, perform in uncontested cases the duties above assigned to the Tehsildar.

UNDER SECTION 73.

Payment of Revenue.

12. The revenue shall ordinarily be paid at the head-quarters of the Tehsil to the Tehsildar or such subordinate as he, with the sanction of the Collector, may appoint to receive it. With the permission of the Collector, the revenue may be paid direct into the head Treasury.

13. The instalments of revenue shall be paid on the dates fixed at settlement, namely, 1st January and 15th June in each year.

14. All money paid into the Tehsil shall be accompanied by an arz irsal.

The arz-irsal shall first be taken to the Wasilbakinavis, who shall, after verifying the correctness of the payment, endorse it for payment to the Tahvildar (Treasurer).

15. No native officer other than the Tahvildar (Treasurer) shall on any account receive or keep any public money whatever.

16. In all cases in which land revenue and cesses are due, the sum paid shall first be credited to cesses and the balance, if any, to land revenue.

17. On receipt of the arz-irsal endorsed by the Wasilbakinavis, the Tahvildar shall take the money, and enter the payment in his own siaha, and endorsing the arz-irsal with his receipt, pass it to the Siahanavis.

18. The Siahanavis shall on the authority of the Tahvildar's receipt, enter the sum as paid in his siaha, and shall draw out the dakhila or receipt, which, after having been duly signed by the Tahvildar and the Tehsildar or other officer in charge of the Tehsil, shall be given to the payer.

19. Information of the credit shall then be given to the Wasilbakinavis, who shall note the same in his khatauni (ledger), initialling the siaha to show that he has done so.

20. The dakhila bahis shall be kept in printed counterfoil registers, each book containing one hundred duplicates bound up and paged.

21. At the end of each day, and before the siaha is sent to the head office, the Wasilbakinavis and the Siahanavis shall compare the siaha with the khatauni, item by item, and the Wasilbakinavis shall number each item in the khatauni with the number borne by such item in the siaha. The Siahanavis and the Tahvildar shall then compare the totals of their siahas, and at once bring to the notice of the Tehsildar or officer in charge of the Tehsil, any discrepancy they may discover. The dakhila bahi shall then be compared with the siaha by the Wasilbakinavis and the Siahanavis.

22. To each arz-irsal, a serial number shall be given, according to the order in which the money is credited in the Tahvildar's roznamcha or daily ledger. The series of these numbers shall com-

UNDER SECTION 110 (a).

Assessment of Land Revenue.—Lands variably assessed.

23. Of land variably assessed to revenue, there shall be two classes :—

Class 1.—The portions of villages lying in the beds of certain tanks which are liable to submergence, and which have been demarcated by the Settlement Officer.

Class 2.—Whole villages in which a standard revenue has been assessed on a standard cultivated area by the Settlement Officer.

24. In lands of class I, the cultivation of each harvest shall be recorded and measured up. The revenue due shall be found by applying to the cultivated area the rate or rates fixed by the Settlement Officer at settlement.

25. In variably assessed villages (class 2), the assessments shall be made by a rate varying between a maximum and minimum assessed at settlement on the cultivated area found under the rules hereinafter provided. The standard rate on which variation is calculated is the rate for the dry cultivation, and to it as a basis all other rates in the village must be referred. All the other rates are multiples of the dry rate, and to find the dry unit area, the area under each class of cultivation (chahi, talabi, abi and dry) must be multiplied by the multiple of its own class.

NOTE.—When the rate falls below the minimum, the minimum rate shall be collected and the excess credited to Government; when the rate rises above the maximum, the maximum rate only shall be collected and the balance of the revenue remitted.

26. The area to be assessed shall comprise all cultivation except that of Muafi and Bhum lands.

27. The record of measurements for purposes of assessment shall give the necessary details for—

1. Lands assessable at well (chahi) rates ;
2. Lands assessable at tank (talabi) rates ;
3. Lands assessable at wet (abi) rates ;
4. Lands assessable at dry rates.

28. The assessments shall be made under the superintendence and orders of the Collector.

29. In determining the rates of assessments, the following general rules shall be observed :—

(a) The rate for the autumn (kharif) harvest shall be struck on the completion of the records of that harvest at a time when the prospects of the ensuing spring (rabi) harvest are fairly well known. The rate to be taken will depend partly on the area under crops in the autumn harvest, and partly on the prospects of the ensuing spring harvest, and shall, subject to the maximum and minimum referred to in Rule 25, be so fixed that the revenue of the whole year may be collected in full without loss or balance. Provided that if, with a view to making good any possible loss of revenue by failure of the rabi harvest, a rate higher than the minimum rate is imposed in the kharif, allowance shall be made for the excess when the rabi assessment is being made, and the assessable area for the whole year is known, and conversely if, at the time of making the assessment for the rabi harvest, it appears that the kharif assessment ought to have been made at a higher rate than that actually assessed, the deficiency shall be recovered along with the rabi instalment.

(b) The rate for the spring (rabi) harvest shall, subject to the rule of maximum and minimum referred to in Rule 25, be found by dividing the balance of the assessment of the year not assessed in the autumn (kharif) harvest by the conventional area of the spring harvest.

(c) Lands irrigated from a well, existing as such at Mr. LaTouche's settlement, shall be liable to assessment at well (chahi) rates.

(d) Lands irrigated from a village tank or nadi, existing as such at Mr. LaTouche's settlement, shall be liable to assessment at the same rate as lands assessed as irrigated from such tank or nadi.

(e) Lands cultivated in the beds of village tanks or nadis, existing as such at Mr. LaTouche's settlement, shall be liable to assessment at abi rates.

(f) Lands irrigated from a well or village tank or nadi not existing as such at Mr. LaTouche's settlement, or lying in the bed of such village tank or nadi and cultivated, shall be assessed as dry.

(g) Lands assessed at settlement as irrigated or as abi but growing dry crops only shall be assessed as dry.

Explanation.—Irrigated includes irrigation from wells, village tanks, and nadis referred to in clauses (c) and (d), but does not include irrigation from variably or permanently assessed tanks.

(h) Lands assessed as irrigated from a permanently assessed tank shall pay full talabi rates, whether irrigated or not.

(i) Lands assessed as irrigated from a variably assessed tank shall pay talabi rates under the rules in force for such tanks.

- (j) Lands irrigated from any stream that feeds or issues from any Government tank that has been permanently assessed, or feeds or issues from any such village tank or nadi as is referred to in clause (d), shall be liable to assessment at talabi rates.
- (k) In the case of lands irrigated from different sources in the same harvest, the rate shall be regulated by the source supplying the greatest number of waterings, or where that number is equal, by the source assessable at the highest rate.
- (l) Double-cropped irrigated lands which are irrigated from such wells, village tanks, or nadis as are referred to in clauses (c) and (d), and are liable to be assessed as such, shall pay the full irrigated rate for the first harvest and one-fourth of the rate for the second harvest.

Explanation.—This rule does not apply—

I, to double-cropped lands irrigated from—

- (A) Permanently assessed tanks;
 (B) Variably assessed tanks;
 (C) Any of the sources mentioned in clauses (f) and (j);

II, or to double-cropped abi lands referred to in clause (c).

- (m) Double-cropped dry lands assessed as such shall only pay the assessment for one harvest.
- (n) Lands growing dry crops or crops assessed as dry in the autumn (kharif) harvest shall pay the dry rate only, and if such lands become liable to assessment as irrigated for the spring (rabi) harvest, the rate for this latter shall be the full irrigated rate minus the amount collected on account of the autumn harvest. Similarly lands paying full irrigated rates for the autumn harvest, and growing dry crops, or crops assessed as dry in the spring harvest, shall not be liable to assessment for the latter.
- (o) Lands paying a higher rate for their position under a variably assessed tank shall be assessed at this higher rate, if cultivated, even though not irrigated during that harvest.
- (p) Lands growing fodder crops for cattle in the hot weather shall not be liable to assessment, and in no case shall lucerne grass grown under wells pay more than a single rate for the whole year.

30. When the rate for the harvest for the village has been settled, the revenue of each sharer shall be found by multiplying the rate into the area of his cultivation as shown in the khatauni.

31. Ordinarily the area bearing crops shall be assumed to be that producing a sufficient crop to supply seed, and if in any particular village in any harvest the crop happens to fall below this standard, the Collector may remit the assessment, provided that in years when there is any general failure of rain over the whole country, the Commissioner may declare, for reasons to be recorded, that the crop in unirrigated lands is only a half or a quarter of an average crop or is nothing (see Example (z) under Rule 32).

32. When the actual assessable cultivated area has been found by the above rules, the assessment shall be made in the manner indicated in Rule 25.

Example (a).—At the time of settlement the Settlement Officer determined that the assessable area of a village ordinarily cultivated was—

					Area.	Rate of assess- ment per acre.	Total assess- ment.
					Acres.	R a.	R a.
Dry	124	0 10	77 8
Abi	40	1 9	62 8
Tank	8	2 13	22 8
Well	50	3 12	187 8
TOTAL					222		350 0

This area is reduced to a multiple of dry units in the following manner:—

The abi rate of R1-9 the acre is $2\frac{1}{2}$ times the dry rate.

The tank rate of R2-13 the acre is $4\frac{1}{2}$ times the dry rate.

The well rate of R3-12 the acre is 6 times the dry rate.

The area in terms of dry units will therefore be—

Dry	$124 \times 1 = 124$ acres.
Abi	$40 \times 2\frac{1}{2} = 100$ "
Tank	$8 \times 4\frac{1}{2} = 36$ "
Well	$50 \times 6 = 300$ "
TOTAL										560 acres.

This 560 acres is called the standard dry unit area, and when multiplied by the dry rate of 10 annas gives the standard revenue of R350.

Example (b).—To continue with the above example, in all variably assessed villages of class 2, a maximum and a minimum rate has been fixed as has been stated in Rule 25. Say that in this village the variation allowed on the standard of 10 annas is between 8½ annas and 11½ annas the acre, then according as the dry unit area increases, the rate to be paid will approximate to the minimum, and according as the dry unit area decreases, the rate will approximate to the maximum, the rate being always found by dividing the standard revenue by the dry unit area. Thus, if in any year the areas are—

[illegible]

This dry unit area would give a rate of $8\frac{1}{2}$ annas the acre ($R\frac{50}{70}=8\frac{1}{2}$ annas); but $8\frac{1}{2}$ being the minimum, this rate must be collected, and the excess $R16-6$ credited to Government.

Example (c).—Take another year in which the areas are—

Example (c).—Take another year in which the areas are—												
Dry	$102 \times 1 = 102$ acres.
Abi	$40 \times 2\frac{1}{2} = 100$ "
Tank	$4 \times 4\frac{1}{2} = 18$ "
Well	$49 \times 6 = 290$ "
												<hr/>
TOTAL DRY UNIT AREA												460 acres.

This dry unit area would give a rate of $12\frac{1}{2}$ annas the acre ($\text{Rs } \frac{10}{8} = 12\frac{1}{2}$ annas), but, $11\frac{1}{2}$ annas being the maximum, this rate must be collected which will give a revenue of Rs 323-7, or Rs 26-9 less than the standard revenue, which deficit must be remitted.

*Example (d).—*The following is an example (continuing the same village as used above) of the assessment in a year in which the Commissioner has declared the dry crop to be a quarter one (see Rule 31)—

The assessable area is found to be—

[illegible]

Then the dry unit area will be ascertained in the following manner—

Dry	40 = 40 acres.
Abi	40 x 2 1/2 = 100 "
Tank	0 x 4 1/2 = 0 "
Well	30 x 6 = 180 "
TOTAL DRY UNIT AREA											300 acres.

33. An English register in the following Form (No. IV) shall be kept up in the Collector's Office, and an opening of two pages shall be assigned to each variably assessed village. In this register the assessment of each harvest shall be recorded :—

Register of Assessments of variably assessed Villages.
